

EUROPEAN CURRICULUM VITAE

Name and surname

LISA DE PASQUALE

PROFESSIONAL EXPERIENCES

- From December 2025

Medical consultati in lifestyle medicine at Qura Health - focuses on developing personalized prevention plans.

Research collaboration with National Institute of Health, department of Neuroscience and Infectious disease (immunology lab).

- From November 2021 to November 2025

Resident doctor of "Hygiene, Public Health and Preventive Medicine" school of the University of Modena and Reggio Emilia.

Major Activities: Translational research, research methodology, health promotion and prevention. Investigation areas: chronic diseases prevention, maternal and child health, environmental epidemiology (endocrine disruptors exposure and physical and neurodevelopmental consequences in children enrolled in the «Modena Cohort Study» in collaboration with pediatricians), mental health and management through lifestyle (adapted and preventive physical activity programs and nutritional control).

Support clinical study design and management. Data collection, database creation and data analysis. Systematic reviews. Health promotion and divulgation.

From October 2024 to October 2025: Internship at the **National Institute of Health** in Rome:

- Laboratory of Immunobiology (Main projects: B cell response and immunological biomarkers in pregnant women with Multiple Sclerosis. Response to vaccinations during pregnancy in pregnant women with Multiple Sclerosis treated with immunosuppressors) and department of Epidemiology. In this research project I collected and processed blood samples, isolated PBMC, analyzed cytokines and chemokines, did ELISA and learnt flow cytometry basis. Moreover, I collected clinical and socioeconomic data of the women and analyzed together with biological data (Supervisor Martina Severa and Eliana Coccia).
- Collaboration with Neuroscience Department (Supervisor Anna Ladogana) for a national mapping projects of center for Prion Diseases.

From September 2023 to October 2024:

- Sport Medicine Service of Modena and Regional Anti-doping Center.
Main Activities: Visits for exercise prescribing and follow-up, studies management and implementation of regional protocols on Adapted and Preventive Physical Activity for chronic and diseases (cardiovascular diseases, diabetes mellitus, neurodegenerative diseases, obesity); nutritional education and health promotions in different sport settings (from populations and schools to elite sport team).
Research projects : development and validation of a regional adapted physical activity protocol for people with multiple sclerosis. translation and validation of the PPAQ questionnaire for pregnant women. Activities : study design, participant recruitment, data collection and analysis, medical assessments.
Supervisor: Gustavo Savino.

Other activities during residency:

- Medical Direction Service at the Santa Maria Nuova (RE) Hospital – Infection control; Supervisor: Luca Sircana
- Public Health Service of Modena during COVID-19.
- Research activities at Department of Biomedical, Metabolic and Neural Sciences, University of Modena and Reggio Emilia (Helping in the management of the «Modena Cohort Study», Systematic Review, questionnaires creation and validation, database creation and data analysis. Helping in research methodology teaching). Environmental epidemiology and exposure effects. Supervisor: Prof. Elena Righi

	- Collaboration with LILT - Lega Italiana Lotta Tumori (Italian Cancer Association - Reggio Emilia - "Luoghi di Prevenzione" to create projects for health promotion and prevention in workers.
• Jan 2020 to Oct 2021	University of Modena and Reggio Emilia, in CIDSTEM (Interdepartmental Center for Stem Cells and Regenerative Medicine of the University of Modena and Reggio Emilia) laboratories. Research projects: "SUPER: SUPERCOMPUTING UNIFIED PLATFORM – EMILIA-ROMAGNA": development of multivariate analysis techniques of personal, demographic, clinical, genetic and microbiological characteristics, in order to define a "multi-marker signature" of the patient aiming to build predictive multimedia models of the outcome of ex-vivo gene therapy. Research fellowship contract (SSD BIO / 10 biochemistry) "Hologene as a model for the development of an advanced therapy based on genetically correct stem cells: from research to clinical application" action 1.2.2: "Hologene 7 2.0: Epidermolysis Bullosa (EB) in Modena, from diagnosis to gene therapy".
Mar 2019 to Nov 2019	Junior research fellowship in Rheumatology (SSD BMED / 16 Rheumatology) Department of the Modena Policlinico with a research grant. Responsibilities, tasks and research areas: • Participation in outpatient visits and study of clinical cases • Database creation and management of patient data (immunological and biological data, clinical data and socio-demographic data) and data analysis.
EDUCATION AND FORMATION	
• November 2025	Specialization in "Hygiene, Preventive Medicine, Public Health". Thesis research project: "Personalized Prevention in Women with Multiple Sclerosis: Vaccine Response During Pregnancy and an Adapted Physical Activity Protocol as a Model of Care for Autoimmune Diseases".
• Feb 2023 – Dec 2023	II level master "Clinical and experimental Neuropsychimmunology" University of Tor Vergata, Rome – Neuromed, Pozzilli Thesis: "The Role of Physical Exercise on Neuroinflammation in Depressive Disorder: A Literature Review". Supervisor: Prof. Diego Centonze
• Sept 2021 to Feb 2022	Master course in "Sport Psychology" – Giunti Psychometrics, Florence
• Feb 2022	Clinical and sportive nutrition course –SIFA nutrizione School
• Feb 2019	State Certification Exam and internship for professional qualification. Enrollment of the professional order of medical doctors of Modena (3/3/2019).
• Jul 2018	Medical degree cum laude, at University of Modena and Reggio Emilia Medical School. Thesis research project: "Interstitial Pneumonia with autoimmune features (IPAF). Analisi delle caratteristiche cliniche ed evolutive di una casistica monocentrica". (Thesis Supervisor: Marco Sebastiani)
• Sep 2016 to July 2017	Medical student at the "Universitat de València de Medicina y Odontologia" in Spain during "Erasmus Plus for Study" project.
• Jul 2012	Scientist with PNI (national informatics plan) high school diploma (100/100).
POST DEGREE COURSES	
• Jun 2023	SATA Software introduction Training Course.
• Jun 2023	Training Course "Physical activity, nutrition and health: the role of the medical doctor", AUSL of Rimini.

	Tutoring activity for University Health professions students and Dentistry in research methodology.
• Oct 2022	GIMBE foundation course "Evidence - Based Practice Core Curriculum".
• 28 March-2 April 2022	Epidemiology and Preventive Medicine School (Erice-Sicily) about "Migrant Health and equality in Public Sanitary System".
• Feb 2021 to Mar 2021	Postgraduate course in "Data Journalism" of San Raffaele University of Milan. Central themes: communication and data about new coronavirus pandemic.
• Feb 2021 to Mar 2021	Company Training Course: Principle of Good Clinical Practice, Research Methodology, Pharmacovigilance
TEACHING EXPERIENCE	
• 28/11/2025	Delivered an academic seminar for the Medicine Degree Program, «La Sapienza» University, on autoimmunity, with a specific focus on immunological responses to vaccination in pregnant women with multiple sclerosis.
	Delivered a seminar for Nursing students on hand hygiene and its role in infection prevention. («La Sapienza» University).
• 23/04/2025	Teaching activity in MEDS-24/B (formerly MED/42) – General and Applied Hygiene, in the Healthcare Assistance degree program, University of Modena and Reggio Emilia. Mentorship of Dentistry and Health Professions students at the University of Modena and Reggio Emilia during epidemiology labs – Teaching of Hygiene (SSD MED/42).
• 2023-2025	
• 03/2023 - 22/10/2024	Co-supervisor for the Master's thesis "Translation and cross-cultural adaptation of a questionnaire assessing physical activity during pregnancy," Master's Degree in Health and Sport (Class LM-67), University of Modena and Reggio Emilia, in collaboration with the University of Verona.
OTHER ACTIVITIES	
	Group leader of the Italian "Physical activity for health" young group of SITI (Italian Society of Hygiene, Preventive Medicine and Public Health). Member of SITI SITI (Italian Society of Hygiene, Preventive Medicine and Public Health) Member of AIE (Italian Epidemiology Association) Member of AINI (Italian Association of Neuroinflammation) A.I.En.P. (Italian Association on Prion Encephalopathies) – Member and divulgative event organizer Member of AIC (Italian celiac disease association).
	Member of "Laboriamo in Sicurezza": Forum theatre-based project on occupational health and safety training (Legislative Decree 81/2008) and risks related to environmental exposure.
	Production of informational, medical and scientific videos (publishes on YouTube: "Scienza, cultura e benessere" channel and "LisaGym" channel). In April 2025 I received the 3 rd prize in the Ferrara "Famelab" scientific divulgative competition.
	FIGC (Italian Soccer Federation) Medical Doctor – Social Medical Doctor of Sassuolo Female A serie Soccer Team (Season 2024).

PERSONAL SKILLS

I am a very creative and curious person, ready to get involved in different areas, to try to link and connect different knowledge and skills to create something new.
I carry out assigned tasks with commitment and precision.
Thanks to University and my work experience, I have developed good skill in communication, management, organization, collaboration, and teamwork.

My communication skills have been significantly strengthened through active involvement in scientific dissemination and public engagement events, as well as through teaching activities in both school and university settings.

Owing to my experience studying abroad during the "Erasmus plus for study" program, I have developed good problem-solving skills, adaptation to different areas, places, environments, languages and people.

Thanks to the work for the thesis degree, the research fellowships, and the residence in Public Health I was able to acquire good skills in research methodology, planning and conducting epidemiological and clinical studies and translational research.

My dream is to research, teach and promote wellbeing, good lifestyle (especially through physical activity) and personalize care.

My vision is to try to integrate preclinical, clinical and socio-demographic/lifestyle data to study patients and population from different point of view for a personalized medicine and prevention. During my study and working pathway, I developed a systemic view and I really believe in a global but precise (based on data) and patient-centered approach to healthcare.

I like studying, research and working in multi-disciplinary and challenging teams.

I love working in international projects and environments and I really enjoy teaching for passing on knowledge and passion to others.

IT SKILLS

Good knowledge of standard Microsoft Office Software. Good knowledge in SPSS Software. Basic knowledge STATA Software.
